

# Virginia Environmental Excellence Program

## E2 Application

Complete and mail documents (preferably printed double-sided) to:  
VEEP Program, PO Box 1105, Richmond VA 23218

<b>Section 1: General Facility/Organization Information</b>	
Facility Name:	
Street Address:	
Mailing Address:	
Check One: Local Government <input type="checkbox"/> State Government <input type="checkbox"/> Federal Government <input type="checkbox"/> Manufacturer <input type="checkbox"/> Other Business <input type="checkbox"/> Other <input type="checkbox"/>	
Contact Name:  Phone:                      Fax:  Email:	Environmental Permit/ID Numbers:  Hazardous Waste: Solid Waste: Water Discharge: Air: Groundwater Withdrawal: Wetlands: Toxics Release Inventory: Facility Registration System: Municipal Separate Stormwater Sewer Systems (MS4): Other:
Previous Facility Names (within past 5 years):  Facility Names Appearing on Current DEQ Permits:	
Water Source (e.g., public water supply, groundwater, etc.):	
Latitude and Longitude (if known): Latitude:                                      Longitude:	
Brief Description of Facility's Primary Function and Activities	
<p><i>Certification Statement:</i> By submitting this application the undersigned acknowledges that participation in this program is entirely voluntary. The undersigned accepts and hereby waives any right to appeal any decision made by DEQ with respect to this application regarding participation in or termination from this program.</p> <p>Furthermore, the undersigned acknowledges that the program requires an annual report filed on line by April 1 each year and at three year intervals from the date of acceptance into the program, a renewal application must be submitted to remain in the program. Failure to meet these requirements may result in termination from the program.</p>	
Name of Certifying Official:	Title:
Signature:	Date:

**E2 Instructions:** The development and implementation of effective environmental management systems (EMS) is the primary goal of VEEP. DEQ does not prescribe the model or type of EMS or the structure of a facility's environmental programs. However, DEQ is responsible for verifying that each facility accepted into VEEP meets the program criteria. Therefore, each E2 applicant is required to address several key points related to its EMS. Please provide documentation (**preferably printed double-sided**) that shows that the following components are in place at your facility.

**Policy Statement:** Attach the facility's Policy Statement outlining its commitment to the environment. When reviewing each application, DEQ staff will look for an environmental policy statement that:

- Includes/stresses compliance, pollution prevention, training, communication & continuous improvement
- Addresses elements that are supported by EMS activities

**Identification of Environmental Impacts:** Describe the facility's process for identifying and evaluating its environmental impacts. At a minimum, include a list of the facility's most significant environmental impacts. When reviewing each application, DEQ staff will look for:

- Comprehensive list of impacts/aspects
- Method for determining significant impacts/aspects
- Impact/aspect review process outlined
- Scheduled review and reevaluation of impacts

**Setting Objectives and Targets:** Please include a list of the facility's goals (objectives) for reducing environmental impacts. Ideally, objectives will include numerical goals with projects designed to achieve these goals. The objectives should include targets or a schedule for completing tasks and/or achieving the stated objectives. When reviewing each application, DEQ staff will look for:

- Goals (or objectives) which address your significant impacts/aspects
- Tasks or projects planned for addressing each goal/objective with a targeted schedule for implementation

**Pollution Prevention:** In a typical EMS structure, objectives and targets may only address the impacts identified as the most "significant." For the pollution prevention section, please feel free to list any other environmental projects that are ongoing or planned. If possible, please include quantified reductions realized or expected and any cost savings. When reviewing each application, DEQ staff will look for:

- A dedicated pollution prevention section listing projects & accomplishments
- Quantified results and costs savings
- Pollution prevention activities outside of significant impacts/aspects

**E2 Environmental Results Commitment:** E2 facilities are required to commit to report on at least one of the environmental measures listed below in their annual reports, which are due by April 1st each year for the previous calendar year. Facilities can report on a specific project that falls within one of the categories (i.e., switching to a non-hazardous parts washer to reduce hazardous waste generation) or their results for reducing the entire waste stream (i.e., energy use for the entire facility). The ability to measure and report progress is critical to the administration and overall tracking of VEEP. Ideally, each participating facility will establish baselines and track progress on all of the environmental measures that are being addressed through their EMS. At a minimum, E2 facilities are required to commit to track EMS results in at least one of the following categories (a list of specific subcategories or "indicators" for each of the categories is available on the VEEP website):

- |   |   |  |
|---|---|--|
| <input type="checkbox"/> <b>Air emissions</b> | <input type="checkbox"/> <b>Energy use</b>          | <input type="checkbox"/> <b>Water discharges</b> |
| <input type="checkbox"/> <b>Water use</b>     | <input type="checkbox"/> <b>Waste</b>               | <input type="checkbox"/> <b>Materials use</b>    |
| <input type="checkbox"/> <b>Land use</b>      | <input type="checkbox"/> <b>Product performance</b> | <input type="checkbox"/> <b>Other</b>            |

**E2 Environmental Compliance Requirements:** As defined by Section 10.1-1187.1 of the Code of Virginia, record of sustained compliance means that "the person or facility (i) has no judgment or conviction entered against it, or against any key personnel of the person or facility or any person with an ownership interest in the facility for a criminal violation of the environmental protection laws of the United States, the Commonwealth, or any state in the previous five years; (ii) has been neither the cause of, nor liable for, more than two significant environmental violations in the previous three years; (iii) has no unresolved notices of violations or potential violations of environmental requirements with Department or one of the Boards; (iv) is in compliance with the terms of any order or decree, executive compliance agreement, or related enforcement measure issued by the Department, one of the Boards, or the U.S. Environmental Protection Agency; and (v) has not demonstrated in any other way an unwillingness or inability to comply with environmental protection requirements". DEQ will conduct a review of each applying facility's compliance record, including a review of EPA records as appropriate.
